The "Gentle Bean" as a Grower.

[From the Manchester Union.] The history of a single bean, accidentally planted in a garden in Southbridge, Mass., is traced by a newspaper correspondent, who figured out its produce for three years. The bean was planted in a rich, loamy soil, and when gathered in the autumn its yield, as counted, "was 1,515 perfectly-developed beans from a single stalk." Now, if a single bean produce 1,515 more, the sum total of the second year's product would be 2,295,225, equal to 1,195 pounds, 597 quarts, or 2,390 army rations, equal to 188 bushels. This would be the product of the second year. Now, if we plant this product and the yield is the same, we have a product of 5,268,058.800,625 beans, equal to 1,271,890 tons, or 42,871,572 bushels, or 548,756,068 soldiers' rations. This third planting would give the steamship Great Eastern ninetytwo full freights.

What Professor Puryear Makes on Five and a Half Acres.

[From a report made to the Tuckahoe Club.] We now give the Club a statement of the proceeds of this little place for 1878, which the Doctor kindly furnished to us: Made twenty-one barrels of corn, abundant vegtables for family; and we have no doubt some for friends not so well supplied. Food for one cow and a horse; kept a man and hired day-labor; sold \$218.55 worth net; all this from five and a balf acres of land, worked on common farming principles. We leave this with the Club as food Respectfully. for reflection. J. G. BEATTIE,

CASE OF MISS —, STATED BY DE. Into MAS M. DARNALL, OF GRIFFIN. GA.

[Extract from letter dated Griffin, Ga., March 6 1879]

"On the 12th day of April, 1878, I was called to see Mary, a child about seven years of age. I found her with decided rever, distrersing nausea, insatiable thirst, a dry skin, very restless, torpid bowels with extreme emaciation and debility. She was passing an unusual quantity of water, about three gallons per day.

"On examination I found it had the characteristic color and smell of disbetic urine. Under Trommer's test it yielded atundant evidence of the presence of glucose (diabetic surar). Its specific gravity was found to be 1030. Under treatment she improved sufficiently to be sent to the Buffalo Lithia springs of Virginia, which place she visited in the month of Augus:, when her condition was so much improved that she returned home in the fall almost entirely free from disease. She is now March 6, 1879 (about a year from the attack), enjoying good health, lively, cheerful, and playful," joying good health, lively, cheerful, and playful."

STONE. CASE OF MR. C. WOLFFE, OF POINT COU-POINT COUPEE PARISH, LA., April 2, 1878.

PEE PARISH, LA.

POINT COUPEE PARISH, LA., April 2, 1878.

Mr. Thomas F. Goode, Proprietor Buffalo Lithia Springs, Virginia:

Two years ago I began to suffer with a severe and constant pain in my kidneys, which was soen followed by violent attacks, averaging about two a week, causing excruciating agony, from which I was frequently relieved by the discharge of stone of from four to six grains in weight: at other times by the passage of smaller stone, and sometimes by sand in considerable quantities.

I sought, but in vain, the best medical assistance, and as the result of this state of things I was reduced to such a condition that my medical advisers told me frankly that I had nothing to hope from remedies: that my condition was a hopeless one and I looked to death alone for a termination of a miserable existence. Mr. J. L. Lyons, a druggist of New Orleans, about six months ago advised me to try the Buffalo Lithia Water, Spring No. 2, which I did. About a week after I commenced the use of it I had an attack of less than usual severity, in which I passed two small stones—one of which I placed in a tumbler of the water, and in about three hours found it dissolved to fine powder. That gave me confidence, and I determined to persevere in its use. I have had no attack whatever since, nor has there been any discharge of stone or sand. since, nor has there been any discharge of stone or

sand.

The pain in my kidneys has entirely disappeared my weight, which had been greatly reduced, I have fully recained, and my general health has been entirely restored. I very cheerfully acknowledge my indebteduess to the Buffalo Lithia Water for my life and the comfort which I now enjoy.

Respectfully,
C. WOLFFE.

RELIEF OF INFLAMMATION AND ULCERA-TION OF THE BLADDER, AFTER THE LIFE OF THE PATIENT HAD BEEN DESPAIRED OF BY HIS MEDI-CAL ATTENDANT. [Extract from letter of Dr. T. B. Greer, of Rock, Mount, Franklin county, Va., of June 3, 1876.]

Mount, Franklin county, Va., of June 3, 1876.]

"I have recently had occasion to try the 'Lithia Water' in a case of Inflammation and Ulceration of the Biadder, caused by the relention of urine, the result of stricture of twenty years' standing. I had exhausted all the resources, both of experience and authority, without relef, and when my patient commenced the use of it had no hope of his recovery. He has been using the water five weeks, with results so favorable that he now has every prospect of complete recovery, and without some unexpected change in his condition, will be on his feet in a short time. The effects of the water in this case have been marvellous. For the sake of humanity I shall keep a record of the case, and report to you as it advances,"

In a subsequent communication, Dr. Greer, reyances."

In a subsequent communication, Dr. Greer, referring to the above case, says:

"Is the case of 'Inflammation and Ulceration of the Bladder,' heretofore reported, the patient recovered, and I attribute the recovery entirely to the Lithia Water."
